PUSHKARAJ JOSHI

Kesnand Fata, Wagholi, Pune, 412207
(+91) 7972371205 j.pushkaraj12@gmail.com Pushkaraj Joshi j-pushkaraj

EDUCATION

G H Raisoni College of Engineering and Management, Pune *2022 - 2026*
Bachelor of Technology, Department of AI & AIML **CGPA: 8.70**

Indian Institute of Technology Madras *2023 - 2027*
Bachelor of Science, Data Science

G H Raisoni College of Engineering and Management, Pune *2024 - 2026*
Honours in Data Science, Department of Computer Science ***Honours***

RELEVANT COURSEWORK

Bachelor of Technology: Software Engineering and Project Management, Database Management Systems, Computer Networks, Natural Language Processing, Deep Learning, Operating Systems, Data Structures and Algorithms, Design and Analysis of Algorithms, Formal Language and Automata, Object-Oriented Programming, Cloud Computing, Java Programming
Bachelor of Science: Mathematics for Data Science, Statistics for Data Science, Computational Thinking, System Commands, Modern Application Development, Introduction to Python, Database Management, Programming Concepts in Java

SKILLS

Programming Languages and Frameworks and Tools: Python, C, Java, Bash Scripting, Flask, GitHub, PowerBI, Google Antigravity, Google Cloud Platform, Microsoft Azure
Database: SQLite
Frontend: HTML, CSS, Bootstrap

EXPERIENCE

Accenture - Summer Intern *May 2025 – July 2025*
Gained practical exposure to core banking operations and system workflows through a hands-on project during my internship at Accenture.

CERTIFICATES

OCI Certified Generative AI Professional Certification *September, 2025*
Oracle

Programming and Data Science Foundational Level *September 15, 2024*
Indian Institute of Technology Madras

Implementing AI using Azure Workshop *January 25-26, 2025*
IIT Madras BS Program

PROJECTS

EduSmart: EduSmart is a full-stack LMS developed using Flask and SQLAlchemy, integrating YOLO and Gemini APIs for automated weakness detection, personalized content recommendations, and student performance tracking.

GENAI-INTERVIEW-BUDDY : GENAI-INTERVIEW-BUDDY is a privacy-first, offline AI interview practice platform using local LLMs (Ollama) to simulate technical interviews with dynamic questions and instant personalized feedback, built with Python (Flask), Tailwind CSS, HTML5, and REST APIs.
